

## Will 4 Adventure

Hello Adventurers!

How good is all this snow? All the walking and climbing forums are buzzing, alight with the message: those mountains are in PERFECT nick for a spot of adventure... so let's not waste it.

And on that note we have moved with the speed of a thousand gazelles and set up an extra [Winter Skills Weekend](#) for the end of this month in Snowdonia. So if you fancy some fun and games in the snow enjoying spectacular scenery from a high, sign up now for this brilliant course. We'll provide the crampons and axes – all you need do is turn up with stiff winter boots and bags of warm clothing and enthusiasm. Go for it!

Also with a whiff of winter but with a sun drenched back drop who wants to join us for a week in Morocco for a [High Atlas Adventure](#) this April? Morocco's High Atlas Mountains are home to North Africa's highest mountain, Jebel Toubkal at 4167m. And heading up there in the snow is by far the best way to do it: the summit view packs a punch that stretches across the alpine snow-scape and deep into the Sahara desert. Also included is a visit to the local bath house to get beaten up by the locals (if you're male or for the ladies - a massage) and a day haggling in the souks of Marrakech ... who's in!?

Closer to home we have a [Valentine's Day](#) mystery adventure on Saturday 13th February in the Peak District. This is no adventure dating day – more a good day in the outdoors with no smug marrieds to spoil the view. So if you're single and looking to crack the code ... [email us](#) for further details right away.

Oh – and before I forget – any more takers for a huge walk across the Peak District on the 23rd January – it's the [Marsden to Edale](#) walk and is so long (25 miles) I'll be taking a road atlas to cover the ground! And just £30 too.

Talking of huge walks, [Challenge4Charity](#) is our annual 50 mile sponsored walk in the Peak District and this year it's in aid of the Peak District Mountain Rescue Organisation. You don't have to walk 50 Miles – wherever you stop, we'll pick you up. The date is 27th March and we welcome both walkers and helpers to join us for this not for profit day in the cuds.

Finally – do the [Scottish 4000's](#) in four days, and now for under £450. It's going to be nails – start training now!

Enjoy the snow and all the best of course for 2010.

Will
